

Louvred Opening Roofs

> 1800 007 321

> apollopatios.com.au

Dynamically shelter your outdoor space with a Lumex Louvred Roofing System professionally installed by Apollo Patios.

With motorised rotating louvres you can easily adjust the amount of sunlight, airflow or rain entering your outdoor space. An optional Mobile App allows you to program the roofing to automatically adjust to changing weather conditions for the ultimate in lifestyle convenience.

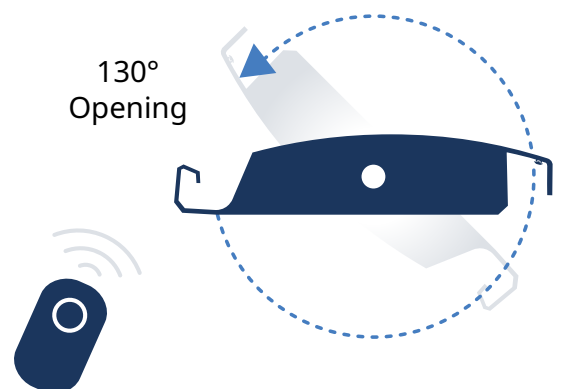

Privacy and Light Control

The motor-driven rotating louvre blades can be positioned up to 130 degrees giving you precise control over the amount of light, shade or privacy you desire throughout the day.

An optional rain sensor automatically closes the roof when it begins to rain.

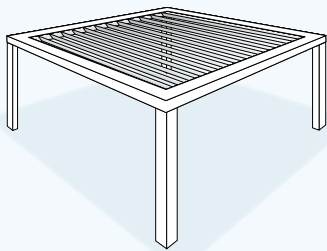

Integrated LED lighting options enable you to create the perfect ambiance at night.
